MANOJ KUMAR N

FULL STACK DEVELOPER | PHP BACKEND DEVELOPER

mkofficial1817@gmail.com | 8925286386 | linkedin.com/in/manoj-kumar-937477201

Professional Summary

Results-driven Full Stack Developer with 1+ year of experience in developing enterprise web applications using PHP, Angular, MySQL, JavaScript, HTML5, CSS3, and RESTful APIs. Skilled in backend development, API integration, database optimization, and full-stack feature implementation for school management solutions.

Technical Skills

• Languages: PHP, SQL, Java, JavaScript

• Frontend: Angular, HTML5, CSS3

• Backend: PHP, RESTful APIs

• Database: MySQL

• Tools: Git, JDBC, Hibernate, Spring Boot

• Core Skills: Full Stack Development, API Development, Database Optimization

Professional Experience

PowerSchool Neverskip | Associate Trainee / Full Stack Developer | Oct 2024 – Present

• Develop and maintain scalable backend services using PHP and MySQL.

• Build and enhance Angular-based interfaces integrated with REST APIs.

• Optimize SQL queries, resolve production issues, and deliver new features.

Professional Projects

Parent App (Backend Development – PHP, MySQL)

• Developed and maintained REST APIs for attendance, assignments, notices, fee management, transport, and parent services.

• Optimized MySQL queries, implemented business logic, and integrated backend APIs with mobile applications.

• Resolved production issues and delivered feature enhancements.

Teacher App (Backend Development – PHP, MySQL)

• Developed backend APIs for LMS, Class Diary, Attendance, Feedback, and Notice Board modules.

• Improved database performance, fixed production issues, and implemented new features.

• Collaborated with frontend and QA teams.

Management App (Backend Development – PHP, MySQL)

• Built backend services for dashboards, reports, notifications, and administrative modules.

• Implemented business logic and optimized database operations.

• Provided production support and resolved critical issues.

Parent Portal (Full Stack Development – PHP, Angular)

• Developed Angular UI components integrated with PHP REST APIs.

• Implemented authentication, portal features, and MySQL integration.

• Enhanced performance through backend optimization.

Transport Management Module (Full Stack Development – PHP, Angular)

• Developed Vehicle Master and Transport Management pages.

• Implemented transport certificate generation and backend API integration.

• Optimized queries and resolved production issues.

Academic Projects

Fertilizers Recommendation System for Disease Prediction

• Deep learning-based plant disease prediction system with fertilizer recommendation.

Encrypted Password Manager

• Android application for securely storing encrypted user credentials.

Education

• B.E. Computer Science & Engineering – Agni College of Technology, Anna University | CGPA: 7.98 (2023)

• Higher Secondary – St. Joseph Higher Secondary School (2019)

• High School – Sushil Hari International Residential School (2017)
